

## Facts about PRA International

**PRA International is one of the world's foremost global clinical research organizations (CROs). Leading with science and innovation, the company provides global clinical drug development services on a contract basis to pharmaceutical and biotechnology companies. PRA is headquartered in Raleigh, North Carolina, and has over 3,600 employees working from offices in North America, Europe, Asia, Africa, South America and Australia.**

A full-service CRO, PRA offers a broad array of services encompassing the entire spectrum of clinical development programs, from filing of Investigational New Drug (IND) and similar applications to product registration and post-marketing surveillance. PRA's global clinical development services include:

- Phase I - IV study management, from "First-in-Human" through Late Phase, Safety and Post-marketing
- Feasibility and protocol design
- Clinical development strategies
- Bioanalytic laboratory services
- Data Monitoring Committee management and support
- Electronic and traditional data capture (EDC)
- Prospective and retrospective database integration
- Regulatory approval strategies and electronic submissions

The company invests heavily in senior medical and scientific professionals, staff development programs, modern facilities, information technology, integrated information systems, continuous improvement, quality management systems and customer account management to in order to be a trusted partner to its clients. PRA operates with the same procedures, systems and business practices worldwide to consistently conduct clinical trials according to the same high standards at every location.

PRA conducts clinical trials in all therapeutic areas with special leadership in Oncology, Central Nervous System (CNS), Cardiovascular, Allergy/Respiratory and Infectious Disease.
